Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not for use on critical or semi-critical medical device surfaces.

GENERAL CLEANING: Spray soiled area then wipe with a dry paper towel or lint-free cloth.

SANITIZE NON-FOOD CONTACT SURFACES and DEODORIZE: To sanitize/deodorize hard, non-porous surfaces hold container six to eight inches from the surface to be treated. Spray area until it is covered with the product. **Allow surface to remain visibly wet for 5 seconds.** Let surface dry. For heavily soiled surfaces, a pre-cleaning step is required. For surfaces that may come into contact with food, a potable water rinse is required.

DISINFECTING, DEODORIZING: Remove gross filth or heavy soil prior to application of **Simple Green Clean Finish Disinfectant Cleaner**. Apply product with a hand pump trigger sprayer. Hold sprayer six to eight inches from the surface to be treated. Spray area until it is covered with the product. **Allow surface to remain visibly wet for 2**

minutes. No scrubbing necessary. Allow treated surfaces to air dry or wipe off with clean cloth.

When using on food contact surfaces: counter tops, stovetops, highchairs, kitchen appliances, thoroughly rinse all treated surfaces with potable (tap) water after the wet-contact time has been reached. This product must not be used to clean eating utensils, glassware and dishes.

***Staphylococcus aureus (Staph), Klebsiella pneumoniae*

†††Klebsiella pneumoniae New Delhi Metallo-Beta Lactamase (NDM-1) Carbapenem Resistant.
